EBENEZER GOVE, *Treasurer.*

The undersigned have examined the foregoing accounts,—we find some errors which have been corrected. Some of the branches are not so full in detail as they should have been. We would also say

that some of the bills paid were not in our opinion legal debts against the town, and were not within the jurisdiction of the selectmen to pay. We also find a deficiency in the amount appropriated for the support of schools of \$34,05, also a wrong basis taken for its distribution among the several School Districts—some exceeding, while others are reduced below their just proportion, some districts varying nearly nine dollars. We also find material omissions and errors in the records of the Selectmen.

All of which is respectfully submitted.

Weare, March 5th, 1855.
